

Contact details and Outcome Ascertainment

Barcode:

Use this form to record details of the outcome of partner notification at six weeks. Return it in the prepaid envelope to the study centre

To ensure comparability across the study please use the following definitions:

Outcome 1: Treatment confirmed. Contact of an index case attends genitourinary clinic or GP surgery and contact slip returned to study co-ordinating centre

Outcome 2: Probable treatment. No contact slip. Contact said by index case to have attended genitourinary clinic and name is checked against clinic records

Outcome 3: Possible treatment. No contact slip. Contact said by index case to have attended genitourinary clinic or GP surgery. No documentary evidence of attendance

Outcome 4: Untreated. Contact not informed by index case
