### **The Chlamydia Screening Study - *CLaSS***

Thank you very much for taking part in CLaSS, the Chlamydia Screening Study.  
However on return of samples to the laboratory a completed consent form was not enclosed.

Could you please complete the enclosed form ensuring that the answer to each question is circled and that you have signed and dated it. You can then return the form in the pre-paid enclosed envelope. Unfortunately we will be unable to process your frozen sample until we receive your signed consent form

Once again I would like to thank you for your assistance with this study.

Yours sincerely
