Dear «e0title» «e0surname»

### **The Chlamydia Screening Study - *ClaSS***

Thank you very much for taking part in ClaSS, the Chlamydia Screening Study.  
However on return of your forms your samples to the laboratory were not enclosed.

Therefore we need you to complete **all of the following**, your questionnaire, consent forms and samples again.

We are very grateful that you could take part in the study and are sorry to have to ask you to collect your samples and complete forms again.

If you feel you can only provide the urine and not the swab sample this is fine.

Once again I would like to thank you for your assistance with this study.

Yours sincerely
