**LETTER FROM LEAD RESEARCHER TO POTENTIAL STAFF INTERVIEWEES
INVITING THEM TO TAKE PART IN AN IN-DEPTH INTERVIEW**

[Address]

Dear

Re: Chlamydia Screening Study

You have been taking part in the Chlamydia Screening Study. An important aspect of this research is to find out how staff providing chlamydia screening felt about this work. We would also like to know in detail what they thought about the testing, treatment and follow up procedures. I am therefore writing to you to ask if you would be prepared to be interviewed by a researcher from the study team about your experiences of providing Chlamydia screening.

Interviews conducted to date suggest that they generally last between 30 minutes and one hour. They can be undertaken at your place of work, the University of Bristol or at another location chosen by you. The interviews will be quite informal and conversational.

If you would be willing to take part in this part of the research, please complete the attached slip below and put it in the envelope provided. The postage has already been paid for. If you have any further questions about this request please ring the researcher Nicola Mills on 0117 9287210.

Yours sincerely,

Dr Matthias Egger
Lead Researcher
Chlamydia Screening Study

I am happy to be contacted with a view to my being interviewed about my experiences of providing chlamydia screening.

I can be contacted on this telephone number..... usually at these times.....

I would prefer not to be contacted about an interview

Please return this slip in the envelope provided. You do not need to use a stamp. Thank you. <Barcode>
